## Personal Profile

I am a Ph.D. candidate at Kim Jaechul Graduate School of AI, Korea Advanced Institute of Science and Technology (KAIST AI). I am fortunate to be advised by Prof. Chulhee “Charlie” Yun of Optimization & Machine Learning (OptiML) Laboratory, KAIST AI. Previously, I worked at Google NYC as an intern (Student Researcher), hosted by Srdinadh Bhojanapalli. Also, I completed my M.Sc. (in AI) and B.Sc. (in Math, minor in CS, Summa Cum Laude) at KAIST.<sup>?</sup>

My primary research interests lie in optimization, machine learning (ML), and deep learning (DL). During my journey to a Ph.D., my ultimate research goal is to **rigorously understand and practically overcome** the following **three critical challenges** in ML/DL:

### Generalizability

#### Generalization capabilities of modern language models.

(e.g., length generalization and compositional generalization of Transformers)

### Adaptability

#### Training adaptable models under an evolving environment.

(e.g., continual learning, maintaining the plasticity of neural networks, sample-efficient reinforcement learning)

### Multifacetedness

#### Learning with multiple (possibly conflicting and/or orthogonal) goals.

(e.g., minimax optimization, bi-level optimization, fairness in ML)

## Publications

### International Conferences

★ Sole first authors.

# Education

---

## Korea Advanced Institute of Science and Technology (KAIST)

Ph.D. in Artificial Intelligence

- Advisor: Prof. Chulhee Yun (Optimization & Machine Learning (**OptiML**) Laboratory, Kim Jaechul Graduate School of AI (GSAI), KAIST)
- Anticipated Graduation Date: Aug. 2027

Seoul, Republic of Korea

Sep. 2023 – Current

## KAIST

M.Sc. in Artificial Intelligence

- Advisor: Prof. Chulhee Yun (Optimization & Machine Learning (**OptiML**) Laboratory, Kim Jaechul Graduate School of AI (GSAI), KAIST)
- Thesis: "Improved Convergence Rate of SGDA by Shuffling: Focusing on the Nonconvex-P $\ell$  Minimax Problems" (Approved by Chulhee Yun, Se-Young Yun, & Donghwan Kim)
- GPA: 4.22/4.3

Seoul, Republic of Korea

Mar. 2022 – Aug. 2023

## KAIST

B.Sc. in Mathematical Sciences

- Minor in Computing Sciences
- Summa Cum Laude (GPA: 4.05/4.3)

Daejeon, Republic of Korea

Mar. 2017 – Feb. 2022

## University of Twente

Exchange Student Program

- Major in Applied Mathematics

Enschede, Netherlands

Feb. 2020 – Jul. 2020

## Incheon Science High School (ISHS)

High School

- Early graduation by one year (i.e., two-year course)

Incheon, Republic of Korea

Mar. 2015 – Feb. 2017

# Experiences

---

## Google G

Internship: Student Researcher Program (On-Site), Engineering

New York, NY, United States

May 5th 2025 – Aug. 22nd 2025

- Host: Srinadh Bhojanapalli (Staff Research Scientist at Google DeepMind)
- Notable Co-workers: Hrayr Harutyunyan & Amir Keivan Mohtashami (Research Scientists at Google DeepMind)
- Office: Google NYC, 9th Building (111 8th Ave, New York, NY)
- Research Topic: Advanced attention mechanisms of Transformers for long contexts

## KAIST 2021 Post-AI Research Project

Daejeon, Republic of Korea

May 2021 – Dec. 2021

Undergraduate Researcher

- Jointly advised by Prof. Sangyoon Yi (DS Lab, GSFS, KAIST) & Prof. Jinkyoo Park (Sys. Int. Lab, ISysE, KAIST)
- Project: Research on 'AI-augmented Organizations' of Collaborative Decision Making and Learning. Below, I list my contribution:
  1. *Algorithm Design*: Devised a model-based randomized algorithm for a single-player finite-horizon NK landscape optimization game
  2. *Experiment Assistance*: Conducted experiments on human-AI cooperation based on the algorithm that I devised

## Individual Study: Optimization for Deep Learning

Daejeon, Republic of Korea

Mar. 2021 – Jun. 2021

Undergraduate Student @ KAIST

- Advised by Prof. Jinwoo Shin (ALIN Lab, GSAI, KAIST)
- (1) Gradient-based optimizers for large-batch setting (e.g., LARS & LAMB); (2) Theoretical analysis on gradient clipping (paper reading)

## Individual Study: Deep Learning in Computer Vision

Daejeon, Republic of Korea

Sep. 2020 – Feb. 2021

Undergraduate Student @ KAIST

- Advised by Prof. Jong-chul Ye (BISPL, BBE, KAIST)
- Assignment: Semantic segmentation of kidney tumor with U-Net (with KiTS19 challenge dataset)
- Self-taught PyTorch coding on Linux Ubuntu

## Individual Study: Statistical Learning Theory

Daejeon, Republic of Korea

Jun. 2020 – Aug. 2021

Undergraduate Student @ KAIST

- Advised by Prof. Yeonseung Chung (MAS, KAIST)
- Resource: Gareth James, Daniela Witten, Trevor Hastie, and Robert Tibshirani. "An Introduction to Statistical Learning: with Applications in R." Springer, 2013. [[link](#)]

## Seminars

---

### SNU-KAIST AI/ML Theory Workshop

Organizer

- Homepage: [nick-jhlee.github.io/snu-kaist-workshop](http://nick-jhlee.github.io/snu-kaist-workshop)
- Jointly organized by three research groups of Prof. Ernest K. Ryu, Prof. Min-hwan Oh, and Prof. Chulhee Yun.

Gangneung, Republic of Korea

Aug. 12th–14th, 2024

### Machine/Deep Learning Theory + Physics (MDLTP) Seminar

Organizer

- Homepage: [sites.google.com/view/mdltp-p](https://sites.google.com/view/mdltp-p)
- Jointly organized by OSI Lab, OptiML, and CSSPL
- Topics: Learning theory, loss landscape, trajectory analysis, (stochastic) optimization, high-dimensional statistics, statistical/mathematical physics, scientific machine learning, and more.

Seoul, Republic of Korea

Jul. 2022 – Feb. 2023

### Geometric Deep Learning Seminar

Participant

- A seminar organized by OptiML and OSI Lab
- Resources: [\[Homepage\]](#) [\[Lecture Videos\]](#) [\[Book\]](#)

Seoul, Republic of Korea

2022

## Awards

---

2025	<b>Top Reviewer (Top 1.88%: 206 of 10,943 reviewers)</b> , ICML 2025	Vancouver, Canada
2024	<b>Best Paper Award (Top 3)</b> , JKAIA 2024	Republic of Korea
2024	<b>Top Reviewer (Top 8.60%: 1,304 of 15,160 reviewers)</b> , NeurIPS 2024	Vancouver, Canada
2022	<b>NAVER Outstanding Theory Paper Award (Top 3)</b> , JKAIA 2022	Republic of Korea
2022	<b>Summa Cum Laude</b> , Bachelor's, KAIST	Republic of Korea
2017 – 2020	<b>The National Scholarship for Science and Engineering</b> , Korea Student Aid Foundation	Republic of Korea
2017 Fall	<b>Dean's List</b> , The School of Freshman, KAIST	Republic of Korea

## Services

---

### Top-tier ML Conference/Journal Reviewer (24 papers)

From time to time

- NeurIPS: 2023 (), 2024\* ( ), 2025 ()
  - NeurIPS 2024: awarded Top Reviewer (Top 8.60%: 1,304 of 15,160 reviewers).
- ICML: 2025\* ( )
  - ICLR 2025: awarded Top Reviewer (Top 1.88%: 206 of 10,943 reviewers).
- ICLR: 2024 ( ), 2025 ( ), 2026 ( ).
- TMLR ( ).

### 1st GPU server manager of OptiML lab

June 2022 – Feb 2024

- Being involved in installing OptiML lab's very first 5 GPU servers and a storage server
- Allocating GPU nodes to lab members
- Managing errors occurred in the servers

### Tutoring Basic Courses for Freshmen at KAIST

Mar 2018 – Dec 2021

- Calculus II (2018–2019; 3 times), Introduction to Programming (Fall 2021)
- Allocating GPU nodes to lab members
- Managing errors occurred in the servers

## Languages

---

**English** Professional Proficiency (i.e., sufficient for academic activities)

**Korean** Native proficiency

**Others** Had some introductory courses on French, German, Classical Latin, & Chinese.

# Skills

---

**Programming** Familiar: Python  (PyTorch, NumPy, Scikit-learn, Jupyter, Pandas, JAX, etc.), MATLAB.

Novice: C, C++, R, HTML/CSS, Scala

**Computer Misc.** Familiar:  (Overleaf/VSCode/MacTex), Git \*, Microsoft Office, Keynote

Novice: Adobe (Lightroom, Premiere Pro, After Effects, Photoshop)

**Music & Hobby** Playing the drums  and percussion. Begun to learn in 2009. Joined music bands listed below:

- ISHS: *Cha-rang* (2015–2016)
- KAIST: *Muse KAIST* (2017–2019), *Carpe Diem* (2019)
- Club “Music Space”: Team *Woodstone* (2024–2025)

I'm a huge music fan, especially for jazz, funk, K-indie, rock, blues, Latin, house, and many more.
